

# Lipogen phosphatidylserine: The Only PS with GRAS Approval

LIPOGEN PS (Phosphatidylserine) is produced from soy lecithin and is being sold worldwide as a nutritional supplement (capsules and tablets) since 1992.

The efficacy of phosphatidylserine (PS) has been recognized by the US FDA, which allows a qualified health claim (May 13, 2003).

On July 20, 2006, the US FDA affirmed (No Question) LIPOGEN PS complex GRAS (generally recognized as safe) notification.

LIPOGEN PS is the only PS product on the market that may be used as a new functional food ingredient.

LIPOGEN PS GRAS approval is based on exclusive Non Bacterial production method.

LIPOGEN PS complex is Kosher, Non-GMO, produced with no solvents under GMP, HACCP and ISO 9000:2000 standard.

LIPOGEN PS complex is protected by several patents (production & usage).
